Acknowledgements i

Executive Summary ii

Feasibility Study Overview

- A. Commercial Pilot Industry in Northwestern Canada..... I-1
- B. Why a Two-Year Diploma Program?..... I-3
- C. Proposed Program Site Suitability..... I-3
 - History of Flight in the Area and the Vanderhoof Airport..... I-3
 - The Community of Vanderhoof I-5
 - Community Benefits..... I-5
- D. General Program Model..... I-6

Survey of Northern Air Operators

- A. Survey Overview II-1
- B. Company Operations II-3
 - Results of Questions Regarding Company Operation II-3
 - Discussion of Company Operations..... II-5
- C. Five-Year Planning..... II-5
 - Results of Questions Regarding Five-Year Planning..... II-5
 - Discussion of Five-Year Planning II-5
- D. Difficulties in Hiring and Retention II-6
 - Results of Questions Regarding Difficulties in Hiring and Retention.... II-6
 - Discussion of Difficulties in Hiring and Retention..... II-7
- E. Pilot Qualities II-7
 - Results of Questions Regarding Pilot Qualities II-7
 - Discussion of Pilot Qualities..... II-9
- F. Training Preferences..... II-10
 - Results of Questions Regarding Training Preferences II-10
 - Discussion of Training Preferences II-12
- G. Potential Program II-12
 - Results of Questions Regarding Potential Program..... II-12
 - Discussion of Potential Program..... II-13
- H. Survey Conclusions II-13

Program Structure

- A. Existing Program Models in BC..... III-1
 - Selkirk College..... III-1
 - BCIT Aerospace/Pacific Flight Club..... III-2
 - University of Fraser Valley/Coastal Pacific Aviation..... III-2
 - Montair..... III-2
- B. Partnering..... III-3
 - Partnering with Existing Program..... III-4
 - The College and Community III-5

- C. Proposed Course Entrance Requirements, Cohort Size and Schedule ... III-7
 - Entrance Requirements III-7
 - Cohort Size III-7
 - Five Semester Diploma Proposed Course Schedule III-7
 - Post Diploma Add-On Options III-9
- D. Enrolment Projections III-9

Technical Feasibility of Proposed Program

- A. Program Delivery IV-1
 - The College IV-2
 - Local Flight School IV-3
- B. Instructional, Operational, Equipment, Supplies and Support IV-4
 - The College IV-4
 - Local Flight School IV-5
- C. Infrastructure IV-6
 - Classroom Space IV-6
 - Flight Training Device/Simulator IV-6
 - Aircraft IV-6

Financial/Economic Feasibility of Proposed Program

- A. College/Non-Aviation Budget V-1
- B. Local Flight School Budget..... V-2
 - Commercial Pilot License V-2
 - Commercial Pilot License + Additional Training..... V-3
- C. Overall Cost of Proposed Program V-4
- D. Costs to Student..... V-4
- E. Infrastructure V-6
 - Simulator..... V-6
 - Simulator Building V-7
- F. Discussion..... V-7

Challenges

- A. Sustainability VI-1
 - Importance of a Diploma..... VI-1
 - Job Placement VI-2
 - Continual Funnel of Qualified Students..... VI-2
 - Optional Student Housing VI-3
 - Airport Infrastructure VI-4
- B. Funding Identification VI-4

Conclusion

- A. Feasibility VII-1
 - Industry Need VII-1
 - What is in Place and What Start-Up Efforts Are Needed VII-1
 - Program Costs..... VII-2

B. Community Outcomes..... VII-3
 Direct Benefits VII-3
 Indirect Benefits VII-4
 C. Next Steps VII-4

References Cited..... VIII-1

Abbreviations VIII-3

Appendix I - Survey of Northern Air Operators

List of Tables

Table 1: Northern Air Operator Survey –Response Summary II-2
Table 2: Number of Year-Round vs. Seasonal Pilots Employed II-4
Table 3: College of New Caledonia 2-Year Diploma Program Model III-6
Table 4: UFV 2-Year Diploma and 4-Year BBAA Program Models III-6
Table 5: UFV/CPA Curriculum and Proposed CNC Equivalents..... IV-1
Table 6: College Budget V-2
Table 7: Private Pilot License (PPL) V-2
Table 8: Commercial Pilot License (CPL) V-3
Table 9: Commercial Pilot License + Float Rating V-3
Table 10: Commercial Pilot License + Instructor Rating V-3
Table 11: Commercial Pilot License + Commercial Helicopter License V-4
Table 12: College Cost Per Student and Semester V-4
Table 13: Student Costs- 2 Yr Commercial Pilot Diploma..... V-5
Table 14: Student Costs- 2 Yr Commercial Pilot Diploma + Float Rating V-5
Table 15: Student Costs- 2 Yr Commercial Pilot Diploma + Instructor..... V-6
Table 16: Student Costs- 2 Yr Commercial Pilot Diploma + Helicopter..... V-6

List of Figures

Figure 1: Geographic Operating Area..... II-3
Figure 2: Number of Pilots Employed II-3
Figure 3: Average Wage Range for New Pilot with the Operation..... II-4
Figure 4: Importance of Overall General Attitude II-7
Figure 5: Importance of Interpersonal and Communication Skills..... II-8
Figure 6: Importance of Compatibility with Company Culture II-8
Figure 7: Importance of Educational Background..... II-8
Figure 8: Importance of Personal Initiative Affecting Advancement..... II-9
Figure 9: Importance of Logging More Hours II-9
Figure 10: Northern Experience..... II-11
Figure 11: Survival Training..... II-11
Figure 12: New Pilots Need “Do-It-All” Attitude..... II-11
Figure 13: Advantage of 2-Year Diploma vs. Regular Pilot’s License..... II-12
