# Apprenticeship Technical Training

VARIES

APPRENTICESHIP

VARIES

VARIES

IN-CLASS

An apprenticeship is a formal written agreement between an employer, an employee and the Industry Training Authority (ITA). Typically, 80–85% of an apprenticeship is work-based training; the rest is technical training in the classroom and/or shop.

Most apprenticeships take four years. Before apprentices can earn a certificate or ticket, they must complete both work-based training and technical training including examinations. After working as apprentices for the period specified by the ITA, graduates can write the Interprovincial Red Seal Examination. Apprentices and employers must register apprenticeships with the ITA.

For up-to-date information on dates for all apprenticeship training at CNC, visit [www.tradetrainingbc.ca](http://www.tradetrainingbc.ca)

Please contact each campus directly for details on program offerings.

## Provincial apprenticeship programs

- Automotive Collision and Refinishing
- Automotive Service Technician
- Carpentry
- Electrical
- Metal Fabrication
- Millwright
- Motor Vehicle Body Repair (Autobody)
- Plumbing
- Professional Cook
- Steamfitter/Pipefitter
- Truck: Transport Mechanic
- Welding

See specific programs for more details on our website. Contact a CNC advisor at 250 561 5818 or [advising@cnc.bc.ca](mailto:advising@cnc.bc.ca) to discuss your educational plan.
