

Early Childhood Care and Learning

Finishing a program in early childhood education is an important step towards becoming licensed to practise as an Early Childhood Educator in BC.

Childhood care and education is a naturally rewarding and challenging career. It is full of opportunities to help children and families learn and grow.

A natural ability around young children is only the first step in the career journey. Professional caregivers face a variety of behavioural, organizational, and personal challenges. This program will prepare you with the skills and knowledge you need to help every child get the most from their time spent in your care.

What do I need?

- ⇒ Successful completion of Grade 12 (with English 12 or English 12: First Peoples with a minimum "C" grade) or equivalent.

Note 1: Upon acceptance into the program, you must provide documents certifying current immunization and TB screening, in addition to a Self-Health Report. These must be on official forms that are included in the ECCL information package and must be submitted prior to the start of the program.

Note 2: You'll have to undergo a criminal record search, Schedule B, through the Ministry of Justice. Any costs are your responsibility.

See specific programs for more details on our website.
