 IN CLASSROOM

### About JET

The Job Education Training certificate consists of five courses. Each course is designed for students with barriers to employment to help explore and gain skills needed in today's job market. Students will explore their own current skills and become aware of how those skills relate to employability. Effective workplace communication is demonstrated and assessed in the classroom and on the job. Students are introduced to different forms of technology that are used to access the current job market. Job search and employment readiness skills are introduced so they can be applied in work experiences in the community. Goal setting and action planning for future steps ensures that each student has an action plan for the future.
