

Real-world training for a career in health care.

Medical Radiography Technology

 PRINCE GEORGE

 DIPLOMA

 TWO YEARS

 SEPTEMBER

 VARIES

The CNC Medical Radiography Technology (MRAD) program utilizes a provincial curriculum to prepare students for critical, rewarding jobs in the medical field.

Medical radiography includes imaging technologies such as x-ray, computed tomography, mammography, fluoroscopy, and interventional procedures.

Careers:

- Hospital medical imaging department
- Patient bedsides
- Operating room or emergency/ER department
- Private imaging clinics

There will be growing demand in BC for people trained in Medical Radiography Technology due to technological advances and a growing, aging population.

You might also be interested in

- Diagnostic Medical Sonography
- Practical Nurse Diploma
