

Medical Terminology

Course Overview

\$645*

This course examines the basic fundamentals of medical terminology in both the written and the spoken forms. You will learn the different medical word parts and word-building skills that will aid in understanding medical terminology and anatomical relations. You will also learn the various terms used to describe or identify diseases, disorders, medical procedures, and abnormalities, as well as the use of appropriate medical abbreviations.

Approximately one week before the course starts you will receive a confirmation email that provides additional course details.

Text book:

The Textbook: Medical Terminology: A Body Systems Approach, 9th Edition 2025, B.A. Gyls and M.E. Wedding can be purchased at the [CNC Bookstore](#).

Prerequisite:

No pre-requisite required.

*Tuition is subject to applicable student fees and taxes.

This course may be eligible for funding through the [StrongerBC future skills grant](#).
