

Transition to Mining Program

Program Highlights **\$3500**

Struggling with employment? Get back on your feet with the Transition to Mining Program.

Transition to Mining teaches the essential and work readiness skills which have been validated and deemed necessary by industry to gain employment in the mining sector.

The program consists of three modules:

1. Common Competency Training - This teaches the competencies and tasks that are common across multiple occupations in the mining industry versus the specialties that set them apart.
2. Digital Fundamentals Training - This teaches the skills and knowledge needed to future-proof the industry's new talents, as well as up-skill existing workers in the digital skills needed to work in the mining industry.
3. Work Readiness - Assists participants with their employment search including Cover Letters, Resumes, Interview Skills, Online Job Search, Creating profiles in portals and uploading documents.

Textbook:

Course materials are provided.

This course may be eligible for funding through the [StrongerBC future skills grant](#).
