

Microsoft 365 Visio

Course Overview

\$218

Microsoft Visio is your ultimate tool for transforming complex data into clear, concise diagrams and flowcharts. In this course, you'll discover how Visio streamlines the entire design process, allowing you to create professional-looking visuals with ease.

Upon successful completion of this course, the student will be able to:

- Create a basic drawing
- Use drawing components
- Modify existing drawings
- Work with callouts and groups
- Create a basic organization chart
- Make a basic floor plan
- Model a room layout
- Create and modify a cross-functional flowchart
- Create network diagrams
- Use shape data and layers
- Modify shape and connector styles
- Work with themes, variants, and containers
