

# Fire Suppression & Entrapment Avoidance

## Course Overview

Upon completion of this course, participants will demonstrate a basic knowledge of the wildland fire environment, suppression and safety procedures and equipment used in BC to effectively and safely respond as a basic wildland firefighter. Avoiding and surviving fire entrapment will also be taught.

## Fees

\$476

## Additional Information

Students will be in the classroom the first day, and in the field the second day. Students must provide work boots with ankle support, hard hats and work gloves.

## Did you know?

“Crown fires” are spread by wind moving quickly across the tops of trees. “Running crown fires” are even more dangerous as they burn extremely hot, travel rapidly, and can change direction quickly.
