

# Intro To Math

## Course Overview

**FREE**

This Math workshop is designed to empower participants with the Math skills they need to succeed in their educational pursuits or in securing and excelling at employment opportunities that require a basic understanding of mathematics. Whether the objective is to pass a placement exam, obtain a certification, or simply improve numerical literacy for work, the workshop provides a focused, interactive, and practical learning experience to meet these goals.

Mathematics concepts can include;

- Number and Number Operations
- Patterns, Functions and Relations
- Measurements
- Geometry
- Real Life Applications

## Additional Information

Students will be expected to meet with the instructor twice per week, for 6 weeks, to go over these concepts with the help of the instructor.

## Ready to Register?

**Phone 250 997 7200**

or drop by during office hours to register in person.
