

# DC Fundamentals

## Course Overview

**\$635**

This online course presents a series of introductory electronic topics that together build the foundation for a comprehensive understanding of direct current (DC) electricity. This course presents material on switches and resistors, Ohm's Law and Watt's Law.

### Recommended

Completion of Math 11 or 12 and Physics 11 or 12.

### Additional Information

After your tuition payment has been processed, you will be sent detailed instructions on how to access the course online. Students are allowed 30 weeks to complete the course. There is an option for an 8 week extension for an additional fee.

Approximately one week before the course starts you will receive a confirmation email that provides additional course details.

## 70 hours Online continuous enrollment

- 1 2023F CEEL 158 101 (Fall)
- 2 2024S CEEL 158 101 (Spring)
- 3 2024I CEEL 158 101 (Summer)

Please register before the recommended date as courses under-enrolled as of this date may be cancelled. Registrations after this date will be accepted if space is available.

### Did you know?

Almost all BC Hydro employees are required to take this course. If you are planning on working at BC Hydro, and have the other employment prerequisites, this course could be an asset.
