

Project Management Fundamentals Level 1

Course Overview

\$461

New building construction, resource development, mega projects, process innovation, and entrepreneurs: Project Management is the center of successful operations across industry.

Work with experienced Project Management professionals to gain the skills in communication, critical thinking, detail organization and data management which will make you an indispensable part of your workplace. This course will introduce and explore the critical concepts you need to vision, plan, implement, control and close any project.

Approximately one week before the course starts you will receive a confirmation email that provides additional course details.

Select sections of CEPJ 110 course may be eligible for the future skills grant. Learn more about eligibility and how to apply for funding by visiting cnc.bc.ca/futureskills.
