

# Advanced Automotive Electrical Tools and Techniques

## Course Overview

**\$950**

This course prepares Automotive Service Technicians (AST) for advanced electronics in today's vehicle systems. Topics include; Ohm's Law, circuit construction, wiring diagrams, circuit testing, equipment use, and electrical troubleshooting. Upon completion, students should be able to properly use wiring diagrams and modern test equipment to quickly diagnose electrical and electronic systems.

Approximately one week before the course starts you will receive a confirmation email that provides additional course details.

### Textbook

Course materials are provided.

### Prerequisites

Students must hold an Automotive Service Technician, Heavy Duty Mechanic, or Truck and Transport Mechanic Red Seal Endorsement or STBC Level 1 or higher.

**30 hours  
In-person**

**1**

**2024I CEAA 124 101**

**June 11 - July 11, 2024**

Tuesday, Thursday | 6:00pm - 9:00pm

Registration recommended by  
Monday, June 3, 2024
