

Fire Suppression S-100 & Fire Entrapment Avoidance S-185

**16 hours
Offered 1 time**

Course Overview

\$399

Get ahead of the fire season! Upon successful completion of this course participants will demonstrate a basic knowledge of the wildland fire environment, suppression & safety procedures, as well as an understanding of equipment used in BC to effectively and safely respond as a basic wildland firefighter. Students will also learn how to avoid and survive fire entrapment.

The most common fire training course in B.C. is the S-100, which is considered as basic fire suppression training for contract crews. The S-100 and S-100A are required to meet the training requirements under Section 26.3.1 Forestry Operation Fire Fighting of B.C.'s Occupational Health and Safety Regulation. The intended audience for this course is forest industry workers and contract fire fighters.
