

Discovering Archaeology

Course Overview

TUITION FREE

This exciting introductory program will cover a variety of topics including cultural resource management, library archives and digital recordings, genealogy, 3D printing, GPS and mapping, and much more!

Students will also receive industry certification in wilderness, bear and chainsaw safety, occupational first aid level 1, and RISC. They will also participate in basic technical notetaking for reporting and incident purposes, as well as build on essential skills.

Participants will take part in both in-class learning and in-field learning. Students will take a field trip to K'san, and familiarize themselves with traditional knowledge from Elder guest speakers.

Program Supports:

- Tuition, fees, books & supplies
- Weekly training wage (attendance based)

12 weeks Offered 1 time

1

March 13 - June 2, 2023

Monday - Friday | 9:00 am - 3:00 pm

Are you interested in exploring the land and learning about the decades (or even centuries) gone by? Our community is rich in history and there is much to learn.

Caution: You may find this program will spark an interest in further learning or a career in Archaeology, Historic Preservation, Museology, Tourism, or many other specialties...
