

Intermediate First Aid (formerly OFA Level 2)

Course Overview

\$330

This course is designed for those who want to take their first aid skills to the next level. This course is ideal for ensuring workplace safety and preparing employees to handle more complex emergencies effectively. The training equips you to handle scenarios with more severe injuries or casualties. Over two days, you'll learn advanced techniques like handling chest & abdominal injuries and performing rescue carries.

Please Note: WorkSafe BC has made changes to the Occupational Health and Safety Regulations relating to occupational first aid. These amended regulations include changes to the name of first aid attendant certificates, and for some workplaces the level of first aid required, these changes will be mandated as of November 1, 2024. Please check with your employer to ensure you are taking.
