

Forklift Operator for General Industry

8 hours

Course Overview

\$440*

Learn how to safely operate a forklift on the job, the responsibilities of the forklift operator, and how to manage those responsibilities to protect health and safety for yourself and others.

This Forklift Operator course will also establish an understanding of the statutory requirements of the federal COHS and provincial and territorial OH&S legislations.

This course is suitable for persons with little or no operational experience. It includes classroom and operating instruction, a written test, and a driving test. Successful participants will receive a three-year Forklift Operator's Certificate from the OH&S Registry.

Course requirements

A Driver's License and safety-toed boots are required.
