

# WHMIS 2015

## Course Overview

The Workplace Hazardous Materials Information System is Canada's national workplace hazard communication standard. This 4- hour, in-person course will familiarize you with the WHMIS system and how it is used in workplaces. The course includes the Global Harmonizing System, classifications, labels, safety data sheets, education, and implementation.

## Additional Information

Successful completion of this course requires 100% participation and attendance and a passing grade on the written exam.

## Ready to Register?

## Did you know?

Protective eyewear is critical for workplace situations where eye hazards are present. Every day, according to the National Institute for Occupational Safety and Health (NIOSH), around 2,000 workers sustain eye injuries at work.
