

Dental Hygiene Diploma

Program Overview

Dental hygiene is a fast-growing and rewarding profession for men and women interested in a career in the dental health sector. Specific clinical duties may include medical history taking, performing routine head and neck examinations, dental and periodontal examinations, exposing of dental images, oral hygiene education, administration of local anesthetic, scaling of teeth and preventative fluoride applications.

Dental hygienists practice in a variety of settings:

- Private dental practices
- Independent dental hygiene practices
- Public health facilities
- Hospitals
- Long-term care facilities
- Educational institutions
