

Medical Radiography Technology Program Information Sessions

Information sessions are open to anyone who has an interest in this profession or in taking the Medical Radiography Technology Program. The information session will provide you the opportunity to ask questions and get firsthand information about the profession to ensure that this career is right for you.

All Medical Radiography Technology Program applicants are required to participate in an information session in order to apply for the program.

We do not have a set schedule for these sessions, as they are organized on an “as needed” basis.

Email Shyan Mason at masons3@cnc.bc.ca to have your name added to the distribution list.

Please include in your email:

- First and last name
- Phone number
- Preference of online or in-person sessions

Thank you for your interest in this program!
