Dual Credit Application Package

The CNC Dual Credit Program allows high school students to earn college credits while completing their high school education. This package will guide you and your parent/guardian through the steps needed to apply and begin your exciting journey into post-secondary learning.

Important Information:

Registration for each semester opens on the following timelines:

- **Fall (September)** and **Spring (January)**: early **May**
- **Intersession (May)**: early **February**

To ensure the best course selection, we strongly recommend applying before the end of your Grade 10 or Grade 11 year. Early applications allow us to register you in your preferred courses before seats fill.

Applications submitted after the recommended timelines will still be processed; however, course availability may be limited.

Next Steps:

- ☐ Download and complete the Dual Credit application package.
- ☐ Work with your school staff / school counsellor to select courses that fit your schedule and align with your goals.
- ☐ Have your school staff / school counsellor submit the completed and signed application package to regoffice@cnc.bc.ca

Please ensure applications are filled out completely before submitting. Incomplete applications will be returned to the school for review.

*Note: Successful completion of your CNC courses does not guarantee admission to future CNC programs. If you wish to continue your studies at CNC after graduation, you must submit a new application for your desired program and meet all admission requirements at that time.

School Staff Approval

As part of the dual credit application process, we want to ensure that the student is set up for success and fully supported in their journey. Please share your assessment of the student's readiness, including whether the student has a clear understanding of expectations in a post-secondary setting, student responsibilities and commitments required to succeed. Do not provide any personal information about the student that is not necessary to answer the following question. Consideration should be given to any necessary high school pre-requisites.

- Do you believe this student has shown academic readiness and maturity to study in an adult environment and will be successful in their courses at CNC? Do not provide any personal information about the applicant that is not necessary to answer the question.

☐ The student has demonstrated readiness for this opportunity, and I fully support their application.
☐ No, I do not recommend the student at this time.

Optional - Please share any additional thoughts about this applicant and their suitability in the space below:

For each approved term (Fall, Spring, Intersession), enter the year the student is approved for and the number of courses they will be registered in. Leave all non-approved/nonregistered terms blank.
